Craig Settles: Towns, Cities Show Power of Fixed Wireless
 Fixed wireless technology is future proof in its own right, the author argues.

www.digitalc.org
DigitalC
 DigitalC is a non-profit focused on improving Greater Cleveland's digital literacy and providing residents with an affordable, high-speed internet connection.

www.clevelandohio.gov
Mayor Bibb proposes broadband legislation to close Cleveland's digital divide; leverage \$20 million City effort into over \$420 million in additional investments
 Two-part plan includes state-of-the-art infrastructure and brings affordable, high-speed internet service to all Cleveland residents for just \$18 per month
